40th ANNUAL SEEDLING SALE 2015

Proceeds benefit Sweet Arrow Lake County Park

Your quality seedlings will increase property value, enhance wildlife habitat, beautify the landscape, improve the environment, and can provide a source of income. Proceeds benefit Sweet Arrow Lake County Park. The Sweet Arrow Lake Conservation Association (SALCA) and the Schuylkill Conservation District work together on this sale. ***Your support is greatly appreciated!***

- **DOUGLAS FIR:** Beautiful, symmetrical evergreen that makes an excellent Christmas and landscaping tree. Grows fast in moist, well-drained soil. 3 year old seedlings. Size: 6-12."
- **CONCOLOR FIR:** Extremely popular tree in past sales. Excellent ornamental or Christmas tree. Has flat, soft green to deep blue citrus-scented needles. Hardy because it withstands dry periods and high temperatures. 4 year old seedlings. Size: 12-24."
- **COLORADO BLUE SPRUCE:** Handsome ornamental or Christmas tree with blue-green needles. Great for wildlife cover. Likes ordinary soil, average moisture, and full sun. 4 year old seedlings. Size: 10-24."
- **SERBIAN SPRUCE:** One of the most graceful and beautiful evergreens. The tree is naturally conical and keeps its shape well plus it is easy to maintain. Each needle is up to 1" long and features two white bands underneath. It works well as a street tree and can tolerate drought. 4 year old seedlings. Size: 10-24."
- **EASTERN WHITE PINE:** Great ornamental or Christmas tree with soft, long blue-green needles. Excellent for wildlife cover. Likes ordinary soil, average moisture, and full sun. 4 year old seedlings. Size: 12-24."
- **AMERICAN ARBORVITAE:** This slow-growing tree prefers full sun to partial shade but adapts to a variety of soil conditions. Prefers moist soils but can withstand drought. It grows to a mature height of 25-40 feet, and has a mature spread of 10-15 feet. Makes a good wind-block and provides cover for all types of wildlife year round. 4 year old seedlings. Size: 10-24."
- **PIN OAK:** Named for a characteristic where small, thin, dead branches stick out like pins from the main trunk. This is among the most widely planted and fastest-growing native oaks. It tolerates drought, poor soils and easy to transplant. Popular because of an attractive shape and trunk. The green, glossy leaves show brilliant red to bronze fall color. 2 year old seedlings. Size: 10-20."
- **CHESTNUT OAK:** A long-lived, deciduous tree that is a great choice as a shade tree for your front yard, or in a place where soil is unsuitable for most other trees. You can use it in the rocky, unpalatable locations of your yard and still expect success. It is decorative, great for wildlife and has a variety of uses. 2 year old seedlings. Size: 24-36."
- **SUGAR MAPLE:** A landscape standout! Medium to dark-green leaves turn a spectacular yellow, burnt orange or red in fall. Tolerates shade, likes a well-drained, moderately moist, fertile soil. Grows to 60' to 75', 40'-50' spread. Future generations will thank you as they pour delicious home-made maple syrup tapped from your trees onto pancakes! 2 year old seedlings. Size: 10-20."
- **AMERICAN CRANBERRY:** *Popular seedling the last two years!* This is an excellent deciduous shrub for screening up to 10 to 12 feet high. It grows to a width of 8 feet with very dense growth of up to 3 feet per year in full sun or part shade. The American Cranberry bush has showy white flowers in spring followed by red berries in fall and winter. Berries hang through mid winter making excellent bird feed. This shrub has very few insect problems and prefers good, well-drained soil. For best growth, provide supplemental water during dry periods. For a solid screen, plant bushes 2 to 3 feet apart. 3 year old seedlings. Size: 10-22."
- **BUTTONBUSH:** This is an easy-to-recognize bush that grows in water or moist soil and has beautiful flowers and fruits. A good plant for slopes and to accent your butterfly garden. It can also be seen in marshes, and bordering streams, ponds, and lakes. Grows in wet woods, thickets, and ditches. It can grow up to 15 feet tall, but is usually much shorter (few feet). Its leaves are usually between three and six inches long, and are shiny, dark green and pointed. 3 year old seedlings. Size: 15-30."
- **WINTERBERRY:** The attractive bright red fruit of winterberry is eaten by small mammals and more than 48 species of birds. The leaves and stems of winterberry are not a preferred source of browse, but deer and rabbits utilize this plant. The persistent bright red fruit of this shrub make it very popular for landscaping. It is recommended for planting in shady moist areas, even though its growth and form are best under open grown conditions. 3 year old seedlings. Size: 8-18."
- **FORSYTHIA:** Beautiful yellow-flowered shrub that is fast-growing to about 7'. Tolerates poor soil and city conditions. Good for screens and hedges and cover for birds and small wildlife. 3 year old seedlings. Size: 10-24."
- **EUROPEAN MOUNTAIN ASH:** Known for its showy white flowers with numerous bright red berries. Great ornamental qualities and good food source for birds. Vigorous and rapid grower that can reach 40 feet tall. Plant in a cool moist location and does better in full sun but will tolerate some shade. This tree prefers well-drained, slightly acidic soils. The fall leaf color can range from yellow, red, and reddish purple which provides for a showy fall display! 3 year old seedlings. Size: 15-30."

40th Annual Seedling Sale Order Form—2015
