

43rd Annual Seedling Sale

Your seedlings will increase property value, enhance wildlife habitat, beautify the landscape, improve the environment, and can provide a source of income. The Sweet Arrow Lake Conservation Association (SALCA) and the Schuylkill Conservation District work together to make this sale possible. ***Your support for Sweet Arrow Lake is appreciated!***

- **DOUGLAS FIR:** Beautiful, symmetrical evergreen that makes an excellent Christmas and landscaping tree. Grows fast in moist, well-drained soil. 3 year old seedlings. Size: 7-14"
- **NORWAY SPRUCE:** Fastest growing of all spruces. Develops pyramidal shape and strong graceful branches that are covered with dark green needles. Ideal windbreaker that likes full sun and grows in various soils. Matures at 60 feet and has a beautiful 25 foot spread. 4 year old seedlings. Size: 10-24"
- **COLORADO BLUE SPRUCE:** Handsome ornamental or Christmas tree with blue-green needles. Great for wildlife cover. Likes ordinary soil, average moisture, and full sun. 4 year old seedlings. Size: 9-18"
- **AMERICAN ARBORVITAE:** This slow-growing tree prefers full sun to partial shade but adapts to a variety of soil conditions. Prefers moist soils but withstands drought. It grows to a mature height of 25-40 feet, and has a mature spread of 10-15 feet. Good wind-block and provides cover for all types of wildlife year round. 3 year old seedlings. Size: 5-10"
- **EASTERN WHITE PINE:** Great ornamental or Christmas tree with soft, long blue-green needles. Excellent for wildlife cover. Likes ordinary soil, average moisture, and full sun. 3 year old seedlings. Size: 5-10"
- **AUSTRIAN PINE:** Good landscaping tree with 4-6 inch long and stiff needles. Grows to a medium-sized tree with a very dense crown. Nice brown to gray bark color. 3 year old seedlings. Size: 10-16"
- **PIN OAK:** Named for a characteristic where small, thin, dead branches stick out like pins from the main trunk. This is among the most widely planted and fastest-growing native oaks. It tolerates drought, poor soils and is easy to transplant. Popular because of an attractive shape and trunk. The green, glossy leaves show brilliant red to bronze fall color. 2 year old seedlings. Size: 10-20"
- **WHITE FLOWERING DOGWOOD:** Prolific, large, pure white, overlapping petal-like blooms in spring, dark green foliage in summer, red-purple leaves in fall and glossy red berries that persist into winter make this a lovely ornamental tree for all seasons. It has a short trunk, horizontal branches, and a moderately globe-shaped crown. The dense branching provides shade and nesting sites, fruit and buds are a favorite with dozens of bird species, and the nectar and pollen attract butterflies. Dogwoods prefer acidic, moist, well drained sites with partial shade, but will take full sun. 2 year old seedlings. Size: 10-24"
- **RED BUD:** Red Bud grows as a small tree with an abundance of purple blossoms in the spring. It has large heart shaped leaves during the summer, and long seed pods in the fall. Popular landscaping tree. 3 year old seedlings. Size: 15-30"
- **AMERICAN CRANBERRY:** Excellent deciduous shrub for screening up to 10 to 12 feet high. It grows to a width of 8 feet with very dense growth of up to 3 feet per year in full sun or part shade. This bush has showy white flowers in spring followed by red berries in fall and winter. Berries hang through mid winter making excellent bird feed. This shrub has very few insect problems and prefers good, well-drained soil. For best growth, provide supplemental water during dry periods. For a solid screen, plant bushes 2 to 3 feet apart. 3 year old seedlings. Size: 15-30"
- **WINTERBERRY:** Winterberry is a deciduous shrub growing 6-15 feet tall and often as wide. It develops a rounded habit through suckering, eventually growing into a sizeable colony of upright stems. The stems tend to be dark brown and often develop a pleasing gray sheen. The 3 inch long, elliptic, toothed, and pointed leaves vary from light to dark green, taking a yellow hue in autumn. Offers bright red berries in late summer. The berries, for which the common name was derived, remain after leaf fall and persist into the winter months to provide food for wildlife. Winterberry prefers evenly moist, acid soils in full sun to partial shade. 3 year old seedlings. Size: 10-30"
- **POND CYPRESS:** Similar to Bald Cypress except with finer foliage, thicker bark and always found in non-flowing bodies of water. These trees maintain a desirable straight trunk and develop thick calipers towards the base. Relatively maintenance free requiring minimal pruning. Will grow 50-60 feet tall with a 10-15 foot spread. Likes wet, poorly drained acidic soil. 2 year old seedlings. Size: 10-20"

43rd Annual Seedling Sale Order Form—2018

All proceeds benefit Sweet Arrow Lake County Park

- **ORDER DEADLINE:** Wednesday, April 4, 2018 or while supplies last!
